

Warrior Disciple

THE NEED

Men Are Disengaged. The Church Is Suffering.

Across North America, men are drifting. They're physically present in church but spiritually absent at home, passive in faith, and untrained to lead. Families are collapsing, young men are wandering, and churches are starving for godly leadership.

This isn't just a cultural problem. It's a *discipleship* problem.

The answer isn't another men's breakfast or weekend event. It's intentional, biblical, reproducible discipleship...men walking with men, learning to live like Christ and lead like Him.

The Mission

Warrior Disciple was written to awaken Christian men to their God-given purpose: to be strong in faith, rooted in truth, and trained to make other disciples.

It's not theory. It's not fluff. It's practical, challenging, and designed for action.

THE TOOL

What Is Warrior Disciple?

Warrior Disciple is a twelve-lesson discipleship manual for men —

perfect for individual study, small groups, or full-scale church programs.

Each chapter includes:

- **Biblical teaching** on core Christian manhood and discipleship
- **Discussion questions** for group engagement
- **Real-life application steps** for growth and accountability

This resource gives men a path to follow—moving from passive believers to active spiritual leaders.

Why It Works

- **Reproducible model:** Men who go through it are challenged to lead the next group.
- **Gospel-centered:** Christ is the foundation for every principle and practice.
- **Adaptable:** Works for large churches, small groups, or one-on-one mentoring.
- **Battle-tested:** Written by men's ministry leader and pastor Scott Roberts, *Warrior Disciple* has already been used to train and transform men across multiple churches.

A Call to Pastors and Leaders

Your church doesn't need more events. It needs men who are trained to follow Christ and lead others.

If you're ready to build a brotherhood of godly men who love the Word, lead their families, and multiply disciples—*this is where it starts*.
